NEW QUESTION: 4

During an audit, the security administrator discovers that there are several users that are no longer employed with the company but still have active user accounts. Which of the following should be performed?

- A. Account expiration
- B. Account recovery
- C. Account lockouts
- D. Account disablement

Answer: D

Explanation:

Account Disablement should be implemented when a user will be gone from a company whether they leave temporary or permanently. In the case of permanently leaving the company the account should be disabled. Disablement means that the account will no longer be an active account.
