NEW QUESTION: 1

Which of the following is/are properties of the mysqldump client program?

- A.** It can put complete dump files on both the client and server host.
- B.** It can only dump files to the server host.
- C.** It dumps table contents to a file.
- D.** It bypasses the server and reads the corresponding data files directly.

Answer: A,C

Explanation:

Explanation:

25.6. mysqldump The mysqldump client program dumps table contents to files. It is useful for making database backups or for transferring database contents to another server. mysqldump can export tables as tab-delimited data files or produce

SQL-format dump files that contain CREATE TABLE and INSERT statements for re-creating the dumped files.
