Quiz The Best Avaya - 72200X Practice Guide

Choosing Exam4Free, choosing success, You may have many demands **72200X Practice Guide** about the quality of our practice materials, but we promise you our products can stand any kinds of trials.

Preparing for the 72200X real exam is easier if you can select the right test questions and be sure of the answers, Benefits from the Avaya Aura® Core Components Support Exam study torrent.

If you just make sure on your part the learning of all Avaya Aura® Core Components Support Exam questions and answers on our Avaya Aura study guide, there is no reason at all to lose your Avaya 72200X Certification exam.

We can assure you that as long as you buy 72200X exam torrent: Avaya Aura® Core Components Support Exam, during the whole

year, our company will send the latest version to you for free as soon as we have compiled a new version of the 72200X prep torrent.

High efficiency is highly emphasized and praised, **72200X Practice Guide** Customer base of more than 50,000, Do you know which method is available and valid, That is our Warranty, Finally, I decided **72200X Practice Guide** to try something new for my exam prep and chose Mecatronica Aruba exam module.

If you use our 72200X exam prep, you will have the opportunity to enjoy our updating system, You may pass your Avaya Aura® Core Components Support Exam exam with good score, after preparation with our study material.

Quiz Avaya - 72200X - High-quality Avaya Aura® Core Components Support Exam Practice Guide

Therefore, after buying our 72200X study guide, if you have any questions about our 72200X study materials, please just feel free to contact with our online after sale service staffs.

Passing the 72200X exam has never been so efficient or easy when getting help from our 72200X training materials, Our 72200X training materials are famous for the high pass rate in this field, if you choose our products we are sure that you will 100% clear 72200X exams.

We sincerely encourage you to challenge yourself as long as you have the determination to study new knowledge, We provide you with the best Avaya Aura 72200X dumps, covering the topics of the Avaya Aura 72200X certification.

NEW QUESTION: 1

Case Study

Trey Research is a global marketing research organization that has a main office in Moscow and branch offices in Los Angeles, London, Berlin, Copenhagen, and Jakarta.

The number of users per office is shown below:

Existing systems and telephones

The company has existing IP-PBX systems that are reaching end of life. They use an automatic call distribution (ACD) system for their help desk. This system provides interactive voice response options to users so that they can choose the location for support. This system is also reaching end of life.

The Copenhagen office uses a call group pickup solution that runs on an existing IP-PBX system. All users with the exception of users in Copenhagen have Direct Inward Dialing (DID) numbers.

Trey Research has Skype for Business Enterprise pools in the Moscow, London, and Berlin offices, respectively. They run a Unified Communications Managed API (UCMA) based application in

a trusted application pool.

All users in Trey Research are using Aries phones. Users authenticate by using PIN codes.

Quarterly global town hall meetings

Executive conduct global town hall meetings each quarter. Each meeting occurs in a different office.

Employees attend the global town hall meetings in meeting rooms which are equipped with full high definition (HD) screens for video. Ten percent of the employees attend the audio portion of the global town hall meetings from their desk.

Trey Research plans to implement Skype for Business Enterprise Voice across the company to replace the existing IP-PBX systems.

You must use the following typical bandwidth values to determine the bandwidth requirements in kilobits per second (Kbps) for the solution:

Video resolution bandwidth:

Audio codec bandwidth:

You have the following requirements:

General

You must reduce international long distance calling costs, and lower support and administration costs

for the IP-PBX and ACD solutions.

You must implement voice survivability for all the sites in case of a wide area network (WAN) link

failure.

Where possible, you must optimize media paths.

The solution must be resilient to the failure of mediation server pools.

The maximum concurrent peer-to-peer connections between Moscow and Berlin will be 196.

Response groups must be managed by dedicated response group administrators.

Gateways

Existing gateways do not support the REFER method. You must use the existing gateways with Skype

for Business to provide PSTN connectivity.

In the event of a failure of both gateways at any office, all international calls from that office must route

through the Moscow gateways.

Outbound calls

All calls placed to Russia from any office must route through

the Moscow gateways.

Germany experiences high public switched telephone network (PSTN) call volume. All calls for

Germany must breakout from Berlin in the event of Mediation Server pool failure in Berlin.

All PSTN calls to Germany must use Berlin gateways in the event of Mediation Server pool failure in

Berlin.

Users in Copenhagen report frequent audio call issues.

You need to resolve the issues.

Which three actions should you perform? Each correct answer presents part of the solution.

A. Create and configure a new network region and assign Berlin and Copenhagen to this region.

B. Create and configure a new network region and assign only Copenhagen to this region.

C. Create an inter-site policy which includes Copenhagen and Berlin and apply the existing BandwidthPolicyProfile "LOW".

D. Create an inter-site policy which includes Copenhagen and Moscow and specify the existing BandwidthPolicyProfile "LOW".

E. Create a new region link between the MPLS region and the Berlin region.

Answer: A,C,D
