NEW QUESTION: 2

Archaeologists seeking the location of a legendary siege and destruction of a city are excavating in several possible places, including a middle and a lower layer of a large mound. The bottom of the middle layer contains some pieces of pottery of type 3, known to be from a later period than the time of the destruction of the city, but the lower layer does not.

Which of the following hypotheses is best supported by the evidence above?

- A. The lower layer contains the remains of the city where the siege took place.
- B. The legend confuses stories from two different historical periods.
- C. The middle layer does not represent the period of the siege.
- D. The pottery of type 3 was imported to the city by traders.
- E. The siege lasted for a long time before the city was destroyed.

Answer: C
