DRAG DROP

You are building a set of deployment scripts for an Azure

application that will be used by developers. The application is deployed using Azure Resource Manager and requires a set of parameters stored in Azure Key Vault during deployment. Developers do not have permissions to view the contents of the Key Vault.

You need to ensure that developers can deploy the application. What should you do? To answer, drag the appropriate JSON fragment to the correct location. Each JSON fragment may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Example:

```
"resources": [  
  {  
    "type": "Microsoft.KeyVault/vaults/secrets",  
    "apiVersion": "2015-06-01",  
    "name": "[concat(parameters('keyVaultName'), '/',  
parameters('secretName'))]",  
    "properties": {  
      "value": "[parameters('secretValue')]"  
    }  
  },
