Finally, they finish all the compilation because of their **Reliable ANS-C00-KR Test Pass4sure** passionate and persistent spirits, High quality and accuracy with trustworthy reputation; professional experts group specific in this line; considerate after-sales services are having been tested and verified all these years, ANS-C00-KR training guide is fully applicable to your needs.

While buying ANS-C00-KR training materials online, you may pay more attention to money safety, If you are satisfied with our free demo, please buy our ANS-C00-KR practice test materials.

NEW QUESTION: 1

legacy 802.11b wireless scanners are begin implemented in your

autonomous AP deployment Existing modern clients work fine on the same SSIDs, APs, and channel the legacy scanner are having difficulty maintaining reliable wireless connectivity, which AP configured could potential correct this issue?

- A. Disable short preamble dot 11 radio1
- B. Disable short preamble dot 11 radio0
- C. Configure global preamble negotiation
- D. Enable short preamble dot 11 radio0
- E. Confirm that 802.11n support is disable
- F. Enable short preamble on dot 11 radio1

Answer: B

NEW QUESTION: 2

In the Cisco Unified Communications Manager Sizing tool, how do you address a Cisco Unified Contact Center Enterprise design with 350 concurrent mobile agents that use 400 CTI port pairs?

- A. Include only 350 as concurrent logged-in agents.
- B. Treat the CTI port pairs as agents and include all configured ports in the count. Use 400 as the agent total.
- C. Include an average of the agent and port count as 375 agents.
- D. Include the 350 agents with their full BHCA, and use the CTI port section to add the additional 100 ports with a BHCA of zero.

Answer: D

NEW QUESTION: 3

Super Sets, Inc. manufactures and sells television sets. All sales are finalized on credit with terms of 2/10, n/30. Seventy percent of Super Set customers take discounts and pay on day 10, while the remaining 30% pay on day 30. What is the average collection period in days?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

Choice "b" is correct. The average collection period represents the weighted average of the periods that accounts receivable are outstanding and is computed as follows:

Choice "a" is incorrect, per the above computation.

Choice "c" is incorrect. This proposed solution mismatches the percentages and the days and represents the sum of the products of 30 x 70 % and 10 x 30%.

Choice "d" is incorrect. This proposed solution is purely the sum of the two customer payment patterns

presented, 10 and 30.
