So our C-ARCON-2108 certification training not only with the useful knowledge will be tested in the real test, but with distinctive features.

NEW QUESTION: 1

Cisco

ISE can be used to provision network devices. Which of the following is a requirement for provisioning network devices using ISE?

- A. The network device must be configured with a valid IP address.
- B. The network device must be configured with a valid hostname.
- C. The network device must be configured with a valid domain name.
- D. The network device must be configured with a valid username and password.

Answer: B

Explanation:

The provisioning wizard only configures interfaces which are

active. Because of this, users with Wired and Wireless connections will not be provisioned for both interfaces, unless they are both active.

NEW QUESTION: 2

You have a Microsoft 365 subscription. You manage a Microsoft OneDrive for Business account that is used by the human resources (HR) department to share content.

You need to ensure that an HR department manager receives a notification email when an item in the OneDrive account is modified.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

NEW QUESTION: 3
