Answer: B

NEW QUESTION: 2

- A. Option B
- B. Option D
- C. Option C
- D. Option A
- E. Option E

Answer: B,C,E

NEW QUESTION: 3

A customer is asking for data level security and wants to restrict what users of the Guardium systems see. Which statement is the correct?

- A. Data level security can be achieved with Guardium only at the aggregator level.
- B. Data level security can be achieved by enabling data level security through the Global Profile in the admin account.
- C. Data level security can only be achieved by creating custom reports for each of the users with queryconditions that limit what they are able to see.
- D. Data level security is not possible with the Guardium solution because once you are logged into your account on the collector you can always create reports on the data that was logged.

Answer: B
