NEW QUESTION: 1

Which of the following is the BEST way of managing risk inherent to wireless network?

- A.** Enable auditing on every connection to the wireless network
- B.** Require private, key-based encryption to connect to the wireless network
- C.** Require that the every host that connect to this network have a well-tested recovery plan
- D.** Enabling auditing on every host that connects to a wireless

network

Answer: B

Explanation:

Explanation/Reference:

Explanation:

As preventive control and prevention is preferred over detection and recovery, therefore, private and key-based encryption should be adopted for managing risks.

Incorrect Answers:

A, C, D: As explained in above section preventive control and prevention is preferred over detection and recovery, hence these are less preferred way.
