NEW QUESTION: 1

You are creating a new portfolio scenario. You are attempting to save it for all users, but the selection is unavailable (grayed out).

What is the cause?

- A.** You have insufficient portfolio security privileges.
- B.** You have insufficient user security privileges.
- C.** You have Insufficient project security privileges.
- D.** You have insufficient global security privileges.

Answer: D

Explanation:

Global profiles:

Define a user's access to application-wide information and settings, such as the enterprise project

structure (EPS), resources, roles, and cost accounts. Each user

must be assigned a global profile.

Incorrect answers:

B: Project profiles Define a user's access to project-specific information. It is not required that each user be assigned a project profile; however, users cannot access projects unless they are assigned: a project profile, the global profile Admin Superuser, as a resource assignment when they are a project owner, or as a resource assignment when they have Team Member module access.
