NEW QUESTION: 1

To what extent will the Cisco IPS sensor contribute data to the Cisco SensorBase network?

- A. It will not contribute to the SensorBase network.
- B. It will contribute to the SensorBase network, but will withhold some sensitive information
- C. It will contribute the victim IP address and port to the SensorBase network.
- D. It will not contribute to Risk Rating adjustments that use information from the SensorBase network.

Answer: B

Explanation:

Explanation/Reference:

Explanation:

To configure network participation, follow these steps: Step 1 Log in to IDM using an account with administrator privileges. Step 2 Choose Configuration > Policies > Global Correlation > Network Participation. Step 3 To turn on network participation, click the Partial or Full radio button: Partial-Data is contributed to the SensorBase Network, but data considered potentially sensitive is filtered out and never sent. Full--All data is contributed to the SensorBase Network In this case, we can see that this has been turned off as shown below:

NEW QUESTION: 2
