NEW QUESTION: 1

Which of the following tools can be used to catalog a database?

- A. Journal
- B. Visual Explain
- C. Configuration Assistant
- D. Alert Center

Answer: B

NEW QUESTION: 2

DRAG DROP

Answer :

Explanation:

NEW QUESTION: 3

DRAG DROP

You develop an application that displays information from log files when errors occur. The application will prompt the user to create an error report that sends details about the error and the session to the administrator.

When a user opens a log file by using the application, the application throws an exception and closes.

The application must preserve the original stack trace information when an exception occurs during this process.

You need to implement the method that reads the log files.

How should you complete the relevant code? (To answer, drag the appropriate code segments to the correct locations in the answer area. Each code segment may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.)

Answer :

Explanation:
