As a result, they never pose any hurdle in your learning [GB0-191-ENU Valid Test Discount](#) as it often happens in case of un-authentic online course free or any other substandard source of learn online.

Briefly speaking, our H52-111_V2.0 training guide gives priority to the quality and service and will bring the clients the brand new experiences and comfortable feelings.

On the other hand we establish excellent relation with IT certification [050-43-NWE-ANALYST02 Exam Reference](#) staff of international large companies so that we can always get the latest news about change or updates about real exam.

H52-111_V2.0 test questions make it possible for students to focus on the important content which greatly shortens the studentsâ€™ learning time.

NEW QUESTION: 1

Which two types of multicast packets are controlled by using storm control? (Choose two.)

- A. OSPF
- B. ICMP

- C. CDP
- D. RIPv2
- E. BPDU

Answer: A,E

NEW QUESTION: 2

You are developing a photo application that will find photos of a person based on a sample image by using the Face API.

You need to create a POST request to find the photos.

How should you complete the request? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: detect

Face - Detect With Url: Detect human faces in an image, return face rectangles, and optionally with faceIds, landmarks, and attributes.

POST {Endpoint}/face/v1.0/detect

Box 2: matchPerson

Find similar has two working modes, "matchPerson" and "matchFace". "matchPerson" is the default mode that it tries to find faces of the same person as possible by using internal same-person thresholds. It is useful to find a known person's other photos. Note that an empty list will be returned if no faces pass the internal thresholds. "matchFace" mode ignores same-person thresholds and returns ranked similar faces anyway, even the similarity is low. It can be used in the cases like searching celebrity-looking faces.

NEW QUESTION: 3

You are the Office 365 administrator for your company.

Users report that their passwords expire too frequently, and they do not receive adequate notice of password expiration.

Account passwords must remain active for the longest duration allowed. Users must receive password expiration notifications as early as possible.

You need to configure the password expiration policy.

How should you set the policy on the password page of the

Office 365 admin center? To answer, drag the appropriate duration to the correct location. Each duration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Answer:

Explanation:

Explanation

The maximum number of days you can set the 'Days before password expire' to is 730. This will make the password valid for the longest duration.

To be notified as early as possible on that the password is about to expire, we should set the maximum value, which is 30, to the ' days before users are notified that their password will expire' setting.

Note: Set a user's password expiration policy
