NEW QUESTION: 2

Inline, Inline grid double, Inline grid triple are saved in the

system as _____. (Choose One)

- A. Layout types
- B. Formats
- C. Controls
- D. Mixins

Answer: B

Explanation:

Explanation/Reference:

The application skin provides a set of style formats for dynamic layouts.

These style formats use one of two basic layout types:

Inline-grid - allows you to set the number of fields (or other items) that appear on the row of the

dynamic layout.

Inline - allows you to add fields (or other items) in a row that flows "inline" like the words in a sentence.

You can choose from four style formats (plus a default format), derived from the two layout types, and you can add custom formats (for example, up to 6 columns in a grid): Default, Stacked, Inline Inline grid double, Inline grid triple
