Is your company regular and qualified?

NEW QUESTION: 1

- A. Option C
- B. Option A
- C. Option B
- D. Option D

Answer: C

NEW QUESTION: 2

You plan to deploy a payroll system to Azure. The payroll system will use Azure virtual machines that run SUSE Linux Enterprise Server and Windows.

You need to recommend a business continuity solution for the payroll system. The solution must meet the following requirements:

- * Minimize costs.
- * Provide business continuity if an Azure region fails.
- * Provide a recovery time objective (RTO) of 30 minutes.
- * Provide a recovery point objective (RPO) of five minutes.

What should you include in the recommendation?

- A. Microsoft System Center Data Protection Manage (DPM)
- B. Azure Site Recovery
- C. Azure Backup
- D. unmanaged disks that use geo-redundant storage (GRS)

Answer: D

Explanation:

If your storage account has GRS enabled, then your data is durable even in the case of a complete regional outage or a disaster in which the primary region isn't recoverable.

Note: The recovery time objective (RTO) is the targeted duration of time and a service level within which a business process must be restored after a disaster (or disruption) in order to avoid unacceptable consequences associated with a break in business continuity.

<https://docs.microsoft.com/en-us/azure/storage/common/storage-redundancy-grs>

https://azure.microsoft.com/en-us/support/legal/sla/site-recovery/v1_0/

NEW QUESTION: 3

Review the sample database.

What is the BLOB column storing for this particular database table?

- A. Encrypted text messages
- B. JPEG images
- C. Mp4 videos
- D. Text messages
- E. Audio files

Answer: B

Explanation:

Explanation

When databases need to store files internally, they make use of BLOBs or Binary Large Objects.

BLOBs are used when the data is not easily defined or not typical, so BLOBs can basically be used to store anything. The embedded JPG file most likely stores the image associated with the contact for this application.

The file header of FF D8 indicates a JPEG image is being stored in this BLOB.
