Under the instruction of our ISO-31000-CLA exam torrent, you can finish the preparing period in a very short time and even pass the exam successful, thus helping you save [AD0-E453 Test Pattern](#) lot of time and energy and be more productive with our ISO 31000 - Certified Lead Risk Manager prep torrent.

You will regret to miss our ISO-31000-CLA practice materials.

**NEW QUESTION: 1**

**Answer:**

Explanation:

Explanation

Box 1: COALESCE

COALESCE evaluates the arguments in order and returns the current value of the first expression that initially does not evaluate to NULL.

If MiddleName is NULL, FirstName must be displayed. If both FirstName and MiddleName have null values, the world Unknown must be displayed.

The following example shows how COALESCE selects the data from

the first column that has a nonnull value.

```
SELECT Name, Class, Color, ProductNumber,  
COALESCE(Class, Color, ProductNumber) AS FirstNotNull  
FROM Production.Product;
```

Not NULLIF: NULLIF returns the first expression if the two expressions are not equal. If the expressions are equal, NULLIF returns a null value of the type of the first expression.

Box 2: COALESCE

If RegionCode is NULL, the word Unknown must be displayed.
