NEW QUESTION: 1

Is it possible to define more than one physical schema associated with the same data server?

- A.** Yes, but you have to flag which one is the default physical schema.
- B.** It is possible, but it is better to avoid doing so because it is more difficult to define a logical schema this way.
- C.** No, ODI Topology does not allow defining more than one

physical schema for a data server because the associated logical schema would be ambiguous.

D. Yes, but it is mandatory to specify a different user to log in.

Answer: A

Explanation:

Explanation/Reference:

Reference:

<http://odiexperts.com/context-logical-and-physical-schema-how-does-it-work/> An Oracle Data Integrator Physical Schema corresponds to a pair of Schemas Data schema where it look for source and target data source Work schema where it creates the temporary data structures for the source nad target in the data schema
