NEW QUESTION: 1

Which of the following are the MOST important benefits of a cloud computing solution for an application development provider? (Select two.)

- A. Reduced training time for new developers
- B. Reduced complexity for users.
- C. Reduced development timeframe.
- D. Reduced bandwidth usage.
- E. Reduced storage requirements.
- F. Reduced cost.

Answer: C,F

Explanation:

The biggest promise of Azure-based applications is the ability to write them to scale as needed in real-time. Customers will therefore only use the amount of resources they need, rather than budgeting a set amount of resources that can overtax or underutilize their current setup. References:

NEW QUESTION: 2

Which report type provides a simple list of data with no subtotals?

- A. Standard
- B. Tabular
- C. Custom
- D. Matrix
- E. Summary

Answer: B

NEW QUESTION: 3

You are the Office 365 administrator for your company. The company uses Office 365 ProPlus and has multiple Microsoft SharePoint Online sites.

The company recently started a project that requires employees to collaborate with external users on the development of a set of documents that are stored in a team site.

You need to ensure that external users can access and edit the documents without affecting the security of other content.

What should you do?

- A. Configure and share guest links to the documents for the external users.
- B. Configure and share a guest link to the existing SharePoint team site for the external users.
- C. Share the existing SharePoint team site by using the Share function and adding the external users to the Contributors group.
- D. Share documents by using the Share function and adding the external users to the Contributors group.

Answer: A

Explanation:

If you perform work that involves sharing documents or collaborating directly with vendors, clients, or customers, then you might want to use your sites to share content with people outside your organization who do not have licenses for your Office 365 subscription.

There are three ways that you can do this:
