Answer: A

NEW QUESTION: 3

You are a system administrator for Dynamics 365 for Customer Service.

All child cases must inherit the product, customer name, case title, and case type from the parent case. Parent cases must not be closed until all child cases are closed.

You need to configure cases.

What should you do?

- A. Create a business rule.
- B. Add the product and case type fields as fields that child cases will inherit from the parent case. Set the closure preference setting to 1 child cases are closed.
- C. Set the closure preference setting to Don't allow parent case closure until all child cases are closed. In Settings, navigate to Customizations. On the case entity, update the Incident-Incident Resolution case relationship field mapping to include the fields.

D. Set the closure preference setting to closure until all child cases are closed.

Answer: B
