NEW QUESTION: 2

A business impact analysis (BIA) is the BEST tool for calculating:

- A. priority of restoration.
- B. total cost of ownership.
- C. residual risk.
- D. annualized loss expectancy (ALE).

Answer: A

Explanation:

Explanation

A business impact analysis (BIA) is the best tool for calculating the priority of restoration for applications. It is not used to determine total cost of ownership, annualized loss expectancy (ALE) or residual risk to the organization.

NEW QUESTION: 3

Which of the following is the BEST practice for configuring a high availability SRX device?

- A. Configure the SRX device with a single physical interface and a virtual interface.
- B. Configure the SRX device with two physical interfaces and a virtual interface.
- C. Configure the SRX device with two physical interfaces and a virtual interface, and configure the SRX device with a single physical interface and a virtual interface.
- D. Configure the SRX device with two physical interfaces and a virtual interface, and configure the SRX device with two physical interfaces and a virtual interface.

Answer: B

NEW QUESTION: 4

You are asked to change when your SRX high availability failover occurs.

One network interface is considered more important than others in the high availability configuration.

You want to prioritize failover based on the state of that interface.

Which configuration would accomplish this task?

- A. Configure IP monitoring of the important interface's IP address and adjust the heartbeat interval and heartbeat threshold to the shortest settings.
- B. Create a separate redundancy group to isolate the important interface; set the priority of the new redundancy group to 255.
- C. Configure interface monitor inside the redundancy group that contains the important physical interface; adjust the weight associated with the monitored interface to 255.
- D. Create a VRRP group configuration that lists the reth's IP address as the VIP while using each physical interface that make up the reth definition of each SRX HA pair.

Answer: C
