NEW QUESTION: 1

DNSSEC is a security extension to the regular DNS protocol and

- A. is a security extension to the regular DNS protocol and
- B. is a security extension to the regular DNS protocol and
- C. is a security extension to the regular DNS protocol and
- D. is a security extension to the regular DNS protocol and

Answer: C

Explanation:

DNSSEC is a security extension to the regular DNS protocol and

services that allows for the validation of the integrity of DNS lookups. It does not address confidentiality or availability at all. It allows for a DNS client to perform DNS lookups and validate both their origin and authority via the cryptographic signature that accompanies the DNS response.

NEW QUESTION: 2

What is an effective method to fix an event that is parsed and determined to be unknown or in the wrong QRadar category/

- A. Create a DSM extension to extract the category from the payload
- B. Create a Custom Property to extract the proper Category from the payload
- C. Open the event details, select map event, and assign it to the correct category
- D. Write a Custom Rule, and use Rule Response to send a new event in the proper category

Answer: B

NEW QUESTION: 3

SIMULATION

The dimensions of Box B, shown below, are twice the length of the corresponding dimensions on Box A (not shown).

How many times the volume of the box B is larger than the volume of the box A?

Answer:

Explanation:

8

Explanation/Reference:

Explanation:

Since the dimensions of Box A are half of the dimensions of Box B, the side lengths must be 3, 2, and 1.5.

Next, find the volumes of the two boxes. Use the formula $V = lwh$. The volume of Box B is 72, and the volume of Box A is 9. 72 is 8 times larger than 9.

NEW QUESTION: 4

You have a deployment of System Center Configuration Manager (Current Branch).

You currently deploy all Windows updates by using Configuration Manager.

You pilot the deployment of Click-to-Run for Office 365 and discover that clients are downloading updates for Office 365 from the Internet.

You need to manage the updates for Click-to-Run for Office 365. What should you do?

- A.** From Default Client Settings, click Software Updates and set Enable management of the Office 365 Client Agent to Yes.
- B.** From Default Client Settings, click Software Updates and set Enable installation of Express installation files on clients to Yes.
- C.** Create an automatic deployment rule (ADR) for software updates.
- D.** Create a deployment package for software updates.

Answer: D

Explanation:

Explanation
