- C. Storage1ã•¼ã•Yã•-Storage3ã•®ã•;
- D. Storage2ã•®ã•;
- E. Storage1ã•®ã•;

Answer: A,C

NEW QUESTION: 3

You are planning a solution that combines log data from multiple systems. The log data will be downloaded from an API and stored in a data store. You plan to keep a copy of the raw data as well as some transformed versions of the data. You expect that there will be at least 2 TB of log files. The data will be used by data scientists and applications. You need to recommend a solution to store the data in Azure. The solution must minimize costs.

What storage solution should you recommend?

- A. Azure SQL Database
- B. Azure Data Lake Storage Gen2
- C. Azure Cosmos DB
- D. Azure Synapse Analytics

Answer: B

Explanation:

To land the data in Azure storage, you can move it to Azure Blob storage or Azure Data Lake Store Gen2. In either location, the data should be stored in text files. PolyBase and the COPY statement can load from either location.

<https://docs.microsoft.com/en-us/azure/synapse-analytics/sql-data-warehouse/design-elt-data-loading>

NEW QUESTION: 4

Your network contains an Active Directory domain named contoso.com. The domain contains a domain controller named DC1 that runs Windows Server 2012 R2.

All client computers run Windows 8 Enterprise.

DC1 contains a Group Policy object (GPO) named GPO1.

You need to deploy a VPN connection to all users.

What should you configure from User Configuration in GPO1?

- A. Policies/Administrative Templates/Windows Components/Windows Mobility Center
- B. Policies/Administrative Templates/Network/Windows Connect Now
- C. Preferences/Control Panel Settings/Network Options
- D. Policies/Administrative Templates/Network/Network Connections

Answer: C

Explanation:

Explanation/Reference:

Explanation:

1. Open the Group Policy Management Console. Right-click the Group Policy object (GPO) that should contain the new preference item, and then click Edit.
2. In the console tree under Computer Configuration or User Configuration, expand the Preferences folder, and then expand the Control Panel Settings folder.
3. Right-click the Network Options node, point to New, and select VPN Connection.

The Network Options extension allows you to centrally create, modify, and delete dial-up networking and virtual private network (VPN) connections. Before you create a network option preference item, you should review the behavior of each type of action possible with the extension.
