The administrator can see the traps for the failed login attempts, but cannot see the traps of successful login attempts. What command is needed to resolve the issue?

- A. Configure logging history 2
- B. Configure logging history 4
- C. Configure logging history 3
- D. Configure logging history 5

Answer: D

Explanation:

Explanation

By default, the maximum severity sent as a syslog trap is warning. That is why you see syslog traps for login failures. Since a login success is severity 5 (notifications), those syslog messages will not be converted to traps. To fix this, configure:

Note:

The syntax of login block is:

login block-for seconds attempts tries within seconds
