Web Simulator and Mobile App Are **PEGAPCBA85V1 Valid Test Pass4sure** Daily Upgraded With The Latest Questions And Customer's Feedback!

NEW QUESTION: 1

You have a deployment of System Center Configuration Manager (Current Branch).

Your company has offices in Paris and Boston.

All client computers run Windows 7.

You plan to migrate all the computers to Windows 10 by using task sequences in Configuration Manager. All the hard drives will be reformatted during the migration.

You need to meet the following requirements:

- * For the computers in the Boston office, the user data and settings must be retained.

- * For the computers in the Paris office, users must be able to select which applications to install.

What should you use in each office? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer :

Explanation:

Explanation
