- H. Create custom views from Event Viewer.
- I. Configure the Active Directory Diagnostics Data Collector Set (OCS).
- J. Configure subscriptions from Event Viewer.

Answer: B

Explanation:

Explanation

Explanation/Reference:

NEW QUESTION: 2

Your organization is developing a web application. The application will access data from a Microsoft SQL Server database.

You must implement a security solution that meets the following requirements:

- * All user logins must be associated with an Active Directory
- * Service accounts are not permitted.
- * Constrained database are not permitted.
- * Users must not be able to log on to SQL Server as the web application and access the database.
- * The web application must be permitted to display records to the and add the database.

You need to implement the required security and permitted structure for the web application while the principle of least privilege.

Which settings should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION: 3

Your network contains a domain controller named DC1 that runs Windows Server 2012 R2.

You create a custom Data Collector Set (DCS) named DCS1.

You need to configure DCS1 to collect the following information:

- * The amount of Active Directory data replicated between DC1 and the other domain controllers
- * The current values of several registry settings

Which two should you configure in DCS1? (Each correct answer presents part of the solution. Choose two.)

- A. System configuration information
- B. A Performance Counter Alert
- C. A performance counter

D. Event trace data

Answer: A,B

Explanation:

Automatically run a program when the amount of total free disk space on Server1 drops below 10 percent of capacity.

You can also configure alerts to start applications and performance logs Log the current values of several registry settings.

System configuration information allows you to record the state of, and changes to, registry keys.

Total free disk space

Registry settings

Run a program on alert
