NEW QUESTION: 1

Which of the following functions should be performed by the application owners to ensure an adequate segregation of duties between IS and end users?

- A. Authorization of access to data
- B. Application programming
- C. System analysis
- D. Data administration

Answer: A

Explanation:

Explanation/Reference:

Explanation:

The application owner is responsible for authorizing access to

data. Application development and programming are functions of the IS department. Similarly, system analysis should be performed by qualified persons in IS who have knowledge of IS and user requirements. Data administration is a specialized function related to database management systems and should be performed by qualified database administrators.

NEW QUESTION: 2
