**NEW QUESTION: 1**

You are devising a policy to allow users to have the ability to access objects in a bucket called appbucket. You define the below custom bucket policy

But when you try to apply the policy you get the error "Action does not apply to any resource(s) in statement." What should be done to rectify the error Please select:

- A. Change the IAM permissions by applying PutBucketPolicy permissions.
- B. Verify that the policy has the same name as the bucket name. If not. make it the same.
- C. Create the bucket "appbucket" and then apply the policy.
- D. Change the Resource section to "arn:aws:s3:::appbucket/\*".

**Answer: D**

Explanation:

Explanation

When you define access to objects in a bucket you need to ensure that you specify to which objects in the bucket access needs to be given to. In this case, the \* can be used to assign the permission to all objects in the bucket Option A is invalid because the right permissions are already provided as per the question requirement Option B is invalid because it is not necessary that the policy has the same name as the bucket Option D is invalid because this should be the default flow for applying the policy For more information on bucket policies please visit the below URL:

<https://docs.aws.amazon.com/AmazonS3/latest/dev/example-bucket-policies.html> The correct answer is: Change the Resource section to "arn:aws:s3:::appbucket/" Submit your Feedback/Queries to our Experts
