Answer :

Explanation:

Explanation

Box 1: A check-in policy

Administrators of Team Foundation version control can add check-in policy requirements. These check-in policies require the user to take actions when they conduct a check-in to source control.

By default, the following check-in policy types are available:

- * Builds Requires that the last build was successful before a check-in.
- * Code Analysis Requires that code analysis is run before check-in.
- * Work Items Requires that one or more work items be associated with the check-in.

Box 2: Build policy
