Answer: D

Explanation:

Explanation/Reference:

Explanation:

7.3.3.1 Cost Baseline

The cost baseline is the approved version of the time-phased project budget, excluding any management reserves, which can only be changed through formal change control procedures and is used as a basis for comparison to actual results. It is developed as a summation of the approved budgets for the different schedule activities.

Process: 7.3 Determine Budget

Definition: The process of aggregating the estimated costs of individual activities or work packages to establish an authorized cost baseline.

Key Benefit: The key benefit of this process is that it determines the cost baseline against which project performance can be monitored and controlled.
