- C. 3, 4, 5, 6, 9, 12, 13
- D. 5, 6, 9, 12, 13

**Answer: C**

#### **NEW QUESTION: 2**

HOTSPOT

You need to recommend a database availability group (DAG) design that meets the technical requirements.

Which DAG design should you recommend?

To answer, select the appropriate design in the answer area.  
Hot Area:

**Answer:**

Explanation:

## Explanation/Reference:

### Testlet 1

#### Overview

##### General Overview

Contoso, Ltd., is an aerospace engineering company that manufactures jet engine parts for various industries and government agencies. Contoso has an Exchange Server 2013 organization. A partner company named Tailspin Toys has an Exchange Server 2010 organization.

##### Physical Locations

Contoso has two offices. The offices are located in Montreal and Chicago.

Each office contains a data center:

The Montreal and Chicago offices connect to each other by using a direct WAN link.

All connections to the Internet are routed through the Montreal office.

Most of Contoso's employees work from the Montreal office.

##### Existing Environment

The network of Contoso is configured as shown in the exhibit. (Click the Exhibit button.)

The network of Contoso contains the following components:  
Client computers that run either Microsoft Outlook 2007 or Outlook 2010.

Users who have a primary SMTP address that uses the contoso.com suffix.

A retention policy that retains all email messages for 580 days and is associated to all users.

Six servers that have Exchange Server installed. The servers are configured as shown in the following

table.

A data availability group (DAG) named DAG1 that contains all of the mailbox servers. EX5 is configured

as the witness server for DAG1. A file server in the Chicago office is configured as an alternate witness server. DAG1 has Datacenter Activation Coordination (DAC) mode enabled.

##### Requirements

##### Planned Changes

Contoso plans to implement the following changes:

Implement an organization relationship between Contoso and Tailspin Toys.

Move the mailboxes of all the members of the sales department

to Office 365.

Evaluate Unified Messaging (UM) by conducting a small pilot in the Montreal office.

#### Security Requirements

Contoso identifies the following security requirements:

Ensure that the data in the Exchange Server databases cannot be read if a hard disk is stolen.

Prevent temporary employees from executing a Reply All or a Forward of any email messages they

receive.

Prevent temporary contractors from changing the configurations of the user accounts for the users in

the research and development department.

Ensure that all of the connections to Outlook Web App from the Internet use Extensible Authentication

Protocol (EAP) protocols and Transport Layer Security (TLS) protocols.

Secure all of the email messages from the users at Tailspin Toys to the Contoso users. Ensure

that all of the messages can be secured if the certificates at Tailspin Toys are issued by a trusted third-party certification authority (CA).

#### Auditing Requirements

Contoso identifies the following requirements for auditing mailboxes:

The manager of the legal department must receive a daily report by email that contains a record of all

the eDiscovery mailbox searches.

Any access to a mailbox by a service account must be excluded from the daily report.

#### Compliance Requirements

All of the email messages in the Sent Items folder of each user in the marketing department of Contoso must be deleted automatically after 365 days.

#### Office 365 Coexistence Requirements

Contoso identifies the following Office 365 coexistence requirements:

Office 365 users must be able to access their mailbox by using their Active Directory user account in

Contoso.

On-premises users must be able to share free/busy information and calendar information with the

Office 365 users.

**NEW QUESTION: 3**

A premature infant needs supplemental O<sub>2</sub> therapy. A nursing intervention that reduces the risk of retrolental fibroplasia is to:

- A. Maintain O<sub>2</sub> at >40%
- B. Maintain O<sub>2</sub> at <40%
- C. Maintain on 100% O<sub>2</sub>
- D. Give moist O<sub>2</sub> at >40%

**Answer: B**

Explanation:

(A) Retrolental fibroplasia is the result of prolonged exposure to high levels of O<sub>2</sub> in premature infants. Complications are hemorrhage and retinal detachment. (B, C, D) O<sub>2</sub> concentration is too high.
