NEW QUESTION: 3

A subscriber opens an email with Conversion Tracking on, clicks a link, but does not purchase. The next day, this subscriber receives a second email with Conversion Tracking on with a follow-up offer, clicks a link, but still does not purchase. The subscriber bookmarks the URL, and on the third day, returns to the webpage and finally makes a purchase.

Assuming the conversion cookie is not deleted, how will the transaction be tracked or attributed?

- A.** The purchase transaction is attributed to both email campaigns.
- B.** The purchase transaction is attributed to the first campaign that the recipient opened and clicked.
- C.** Because the final purchase was made by a visit directly to the webpage, the purchase is considered a web transaction and no email attribution is registered.
- D.** The purchase transaction is attributed to the second campaign (most recent) that the recipient opened and clicked.

Answer: D

NEW QUESTION: 4
