Drag and Drop Question

You have been tasked with creating a vSphere 6.5 data center design for an organization. The organization has provided a number of requirements, resulting in a preliminary vSphere cluster design shown in the Scenario. The organization has purchased additional servers configured with large amounts of resources (i.e. CPU, RAM) that could be integrated into the cluster design.

Consider each vSphere cluster design and determine the benefit of adding additional servers to the design.

Match the Action on the left by dragging the red buttons (A1-A3) over the text of the corresponding Effect.

NOTE: Actions taken might have more than one Effect on the cluster design.
