NEW QUESTION: 1

Drag and drop each WAN design option on the left onto the correct description on the right.

Answer:

Explanation:

Explanation

Dual-homed = one router with two connections to the same ISP

Dual-multihomed = one or more router with redundant connections to two or more ISPs.

Single-homed = One router with a connection to an ISP

Single-multihomed = one or more routers with connections to two or more ISPs.

NEW QUESTION: 2

- A. Option C
- B. Option A
- C. Option B
- D. Option D

Answer: D

NEW QUESTION: 3

An Administrator has started a push-image operation at the start of the work day while clone creation is in progress. The security team has discovered an issue with the new image being pushed out. It has been requested to cancel the push-image operation immediately; however, clones that have the new image remain in the pool and the pool now has a mix of clones.

What must the administrator do to ensure that all the clones in the pool have the same image?

- A. Click Start > Run, type services.msc, and click OK. From the list of services, right-click the VMware View Connection Server or VMware View Security Server service and select Restart.
- B. Notify all users to log out of their current session and log back in.
- C. Stop the push image operation and recompose the image.
- D. Remove all the clones. View recreates the clones with the same image.

Answer: A

NEW QUESTION: 4

Your customer is planning to configure an Individual Compensation Company Car Plan to include only the Sales department employees. The customer also wants to restrict luxury model vehicles to executive positions.
