Answer: B,D

Explanation:

If the ORDER BY clause is not used, the sort order is undefined, and the Oracle server may not fetch rows in the same order for the same query twice. Use the ORDER BY clause to display the rows in a specific order.

Note: Use the keywords NULLS FIRST or NULLS LAST to specify whether returned rows containing null values should appear first or last in the ordering sequence. ANSWER C Sorting The default sort order is ascending:

- * Numeric values are displayed with the lowest values first (for example, 1 to 999).
- * Date values are displayed with the earliest value first (for example, 01-JAN-92 before 01- JAN-95).
- * Character values are displayed in the alphabetical order (for example, "A" first and "Z" last).
- * Null values are displayed last for ascending sequences and first for descending sequences.
- ANSWER B
- * You can also sort by a column that is not in the SELECT list.
