NEW QUESTION: 4

You are a virtualization consultant working on a DR project. You have proposed a solution that uses SAN replication technology to replicate production virtual machine files. This meets the cold standby requirement. Which of the following could be a design constraint?

- A. This link is currently 10 M
- B. The company is at the end of year 1 of a 3-year contract for the point-to-point link between Site A and Site
- C. The company is undecided about the choice of centralized storage to be used in the enterprise.
- D. The hardware currently being used in the datacenter is out of support.

Answer: B

Explanation:

An item from the current state analysis that would restrict or change a design choice is potentially a constraint. Such factors can limit a design and in some cases prevent the realization of a project vision.
