NEW QUESTION: 1

- A. IBM Storwize V5010
- B. IBM FlashSystem 900
- C. IBM Storwize V5030
- D. IBM FlashSystem A9000

Answer: D

NEW QUESTION: 2

By default, OTM installs some agents at the time of

installation.

Identify two correct statements. (Choose two.)

- A.** By default, some agents are active, while others are inactive. The Administrator or other authorized persons must review the agents and activate or deactivate appropriately.
- B.** OTM will install agents into the designated "company" domain, but not into domains such as PUBLIC and SERVPROV.
- C.** All agents are inactive. The Administrator or other authorized persons must review and activate those they want to run in their environment.
- D.** All agents are active. The Administrator or other authorized persons must review and deactivate those they want to run in their environment.
- E.** OTM will install agents into domains such as PUBLIC and SERVPROV.

Answer: C,E

NEW QUESTION: 3

CORRECT TEXT

Cloud computing is the use of services such as software development platforms, servers, storage, and software. These services are delivered through the Internet.

There are three cloud deployment models: private, public, and hybrid.

Each statement describes a cloud deployment model Write the model after the statement-

1. A computing service model that integrates in-house IT infrastructure with other products and services off-site.
2. A computing service model that provides core infrastructure, software, and other back- end architecture in a multitenant environment, all managed by a provider.
3. A computing service model that provides storage and computational services behind a firewall, only accessible to users or partners of a single organization.

Answer:

Explanation:

Public, hybrid, private

NEW QUESTION: 4

Your company has an infrastructure that has the following:

- * A Microsoft 365 tenant
- * An Active Directory forest
- * Microsoft Store for Business
- * A Key Management Service (KMS) server
- * A Windows Deployment Services (WDS) server
- * A Microsoft Azure Active Directory (Azure AD) Premium tenant

The company purchases 100 new computers that run Windows 10.

You need to ensure that the new computers are joined automatically to Azure AD by using Windows AutoPilot.

What should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer :

Explanation:

Explanation
