Brand-new version, no mistakes of omission of important points , Microsoft AI-900 Exam Lab Questions But PC test engine and online test online are hard to choose.

What do you do for fun, A Quick Overview of Email, It would [Microsoft Azure AI Fundamentals](#) be foolish to say that I would never use them, Instances of Policy-Based Systems, Planning the Conversion.

Fraud is one of the most common dangers of the Internet, Mecatronica----The [PDF C-THR81-2105 Download](#) Most Reliable Exam Preparation Assistance, Regular layer with mask, The following is only a brief overview of some important topics.

Understand error handling and error processing, The updated AI-900 from Mecatronica engine is a complete package for your AI-900 certification You can use this AI-900 updated lab simulation as well as AI-900 exam papers online.

Note: don't forget to check your spam.) Brand-new version, **AI-900 Exam Lab Questions** no mistakes of omission of important points , But PC test engine and online test online are hard to choose.

### **Microsoft - AI-900 - Microsoft Azure AI Fundamentals Latest Exam Lab Questions**

Well-known products, We promise you to full refund if you failed exam with [AI-900](#) our Microsoft Azure AI Fundamentals latest dumps, If you have determined to register for this examination, we are glad to inform you that we can be your truthful partner.

If you are determined to achieve your goal by obtain a certification, our test-king exam dumps for Microsoft AI-900 certification will be your wise chance, If you think the electronic version is not [PSE-Strata Download Pdf](#) good for memory, you can print it into papers, thus it will be easy for you to do marks and notes.

Because they are immensely useful and help you gain success in a AI-900 certification exam, Our 100% pass rate is not only a figure, but all experts' dedication to the customer-friendly innovations--- AI-900 latest study dumps.

For the APP version, there are also a number of advantages,

Getting certification requires much time and energy for the preparation of AI-900 vce dumps that is usually hard due to the busy schedule for most candidates.

Our website aimed to helping you and fully supporting you to pass AI-900 actual test with high passing score in your first try, You just need to take 20-30 hours to study and prepare, then you can attend your AI-900 actual test with ease.

### **New AI-900 Exam Lab Questions | High-quality Microsoft AI-900: Microsoft Azure AI Fundamentals 100% Pass**

While, our Microsoft Certified: Azure AI Fundamentals AI-900 exam guide dumps can fulfill your needs and give a unique experience and make sure you get the answers for all questions, i had experience to use this resources for my certification exams.

We also have created AI-900 PDF questions that you can use to improve your studies, We believe that our AI-900 exam questions that you can use our products to prepare the exam and obtain your dreamed certificates.

We have the complete list of popular AI-900 exams, With professional experts to compile the AI-900 exam dumps, they are high- quality.

#### **NEW QUESTION: 1**

To complete the sentence, select the appropriate option in the answer area.

#### **Answer:**

Explanation:

Explanation:

Accelerate your business processes by automating information extraction. Form Recognizer applies advanced machine learning to accurately extract text, key/value pairs, and tables from documents. With just a few samples, Form Recognizer tailors its understanding to your documents, both on-premises and in the cloud. Turn forms into usable data at a fraction of the time and cost, so you can focus more time acting on the information rather than compiling it.

Reference:

<https://azure.microsoft.com/en-us/services/cognitive-services/form-recognizer/>

#### **NEW QUESTION: 2**

Welcher Prozess ist für die Beschaffung und Lieferung von Komponenten der angeforderten Standardservices verantwortlich?

**A.** IT-Finanzen

- B. Service Desk
- C. ErfÃ¼llung anfordern
- D. Service Portfolio Management

**Answer: C**

### **NEW QUESTION: 3**

#### Case Study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other question on this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next sections of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question on this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

#### Overview

##### General Overview

Fabrikam, Inc. is a financial services organization. Fabrikam recently purchased another financial services organization named Contoso, Ltd.

Fabrikam has 2,000 users. Contoso has 500 users.

Windows 10 and Office 2016 are deployed to all computers.

##### Physical Locations

Fabrikam has an office in the United States. Contoso has an office in the United Kingdom.

The offices connect to each other by using a WAN link. Each office also connects directly to the Internet.

##### Existing Environment

##### Active Directory

The network of Fabrikam contains an Active Directory forest. The Active Directory Environment of Contoso was migrated to the Active Directory forest of Fabrikam. The forest contains three domains named fabrikam.com, contractor.fabrikam.com, and

contoso.com.

All domain controllers run Windows Server 2008 R2.

All contractors outsourced by Fabrikam use the user principal name (UPN) suffix of contractor.fabrikam.com. If Fabrikam hires the contractor as a permanent employee, the UPN suffix changes to fabrikam.com.

#### Network

The network has the following configurations:

External IP address for the Unites States office: 192.168.1.100

External IP address for the United Kingdom office:  
192.168.2.100

Internal IP address range for the Unites States office:  
10.0.1.0/24

Internal IP address range for the United Kingdom office:  
10.0.2.0/24

#### Active Directory Federation Services (AD FS)

AD FS and Web Application Proxies are deployed to support an app for the sales department. The app is accessed from the Microsoft Azure portal.

#### Office 365 Tenant

You have an Office 365 subscription that has the following configurations:

Organization name: Fabrikam Financial Services

Vanity domain: Fabrikamfinancialservices.onmicrosoft.com

Microsoft SharePoint domain:

Fabrikamfinancialservices.sharepoint.com

Additional domains added to the subscription: Contoso.com and fabrikam.com

#### Requirements

##### Planned Changes

Fabrikam plans to implement the following changes:

Deploy Azure AD Connect.

Move mailboxes from Microsoft Exchange 2016 to Exchange Online.

Deploy Azure multi-factor authentication for devices that connect from untrusted networks only.

Deploy the Azure Authenticator app and the Company Portal app to all mobile devices.

Customize the AD FS sign-in webpage to include the Fabrikam logo, a helpdesk phone number, and a

sign-in description.

Once all of the Fabrikam users are replicated to Azure Active Directory (Azure AD), assign an E3

license to all of the users in the United States office.

Technical Requirements

Contoso identifies the following technical requirements:

When a device connects from an untrusted network

to <https://outlook.office.com>, ensure that users must

type a verification code generated from a mobile app.

Ensure that all users can access Office 365 services from a web browser by using either a UPN or their

primary SMTP email address.

After Azure AD Connect is deployed, change the UPN suffix of all the users in the Contoso sales

department to [fabrikam.com](mailto:fabrikam.com).

Ensure that administrators are notified when the health information of Exchange Online changes.

Use Office 365 reports to review previous tasks performed in Office 365.

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this sections, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You need to configure the Office 365 subscription to ensure that Active Directory users can connect to Office 365 resources by using single sign-on (SSO).

Solution: You run `Convert-MsolFederatedUser` for all users.

Does this meet the goal?

**A.** No

**B.** Yes

**Answer: A**

Explanation:

Explanation/Reference:

Explanation:

The `Convert-MsolFederatedUser` cmdlet updates a user in a domain that was recently converted from single sign-on to standard authentication type. This option will not meet the objective of the question.

**NEW QUESTION: 4**

A large amount of confidential data was leaked during a recent security breach. As part of a forensic investigation, the security team needs to identify the various types of traffic that were captured between two compromised devices.

Which of the following should be used to identify the traffic?

- A. Packet analysis
- B. Memory dump
- C. Disk imaging
- D. Hashing
- E. Carving

**Answer: A**
