Answer: A,E

NEW QUESTION: 2

What are financial market professionals not explicitly required by the Model Code to clarify and agree to in writing?

- A. that the customer understands he will be charged for advisory services that are provided
- B. that the customer understands that any information or explanation should not be interpreted as investment advice or recommendations
- C. that the customer understands he is entering into the transaction at his own risk and for his own account.
- D. that the customer understands the terms, conditions and risks of the transaction

Answer: A

NEW QUESTION: 3

Why are some virtual machines orphaned after rebooting a High Availability (HA) enabled host?

- A. The host just came out of maintenance mode.
- B. The Orphaned virtual machines have HA restart disabled.
- C. The host is attached to failed storage.
- D. The Orphaned virtual machines moved recently and the change did not persist.

Answer: B

Explanation:

Explanation/Reference:

Explanation:

If the host is rebooted within an hour after the virtual machines are moved or powered on, the vmInventory.xml file does not persist and hostd does not report these virtual machines as registered on the host. In an HA-enabled cluster, this condition impacts only the virtual machines with HA restart disabled.
