If you don't pass, GET YOUR MONEY BACK, We have three different versions of our CSATAL-001 Exam Content exam questions which can cater to different needs of our customers.

CSATAL-001 Guide Quiz helped over 98 percent of exam candidates get the certificate.

NEW QUESTION: 1

When auditing a proxy-based firewall, an IS auditor should:

- A.** verify that the firewall is not dropping any forwarded packets.
- B.** test whether routing information is forwarded by the firewall.
- C.** review Address Resolution Protocol (ARP) tables for appropriate mapping between media access control (MAC) and IP addresses.
- D.** verify that the filters applied to services such as HTTP are

effective.

Answer: D

Explanation:

Explanation/Reference:

Explanation:

A proxy-based firewall works as an intermediary (proxy) between the service or application and the client, it makes a connection with the client and opens a different connection with the server and, based on specific filters and rules, analyzes all the traffic between the two connections. Unlike a packet-filtering gateway, a proxy-based firewall does not forward any packets. Mapping between media access control (MAC) and IP addresses is a task for protocols such as Address Resolution Protocol/Reverse Address Resolution Protocol (ARP/RARP).

NEW QUESTION: 2

The essential difference between a 401(k) plan and a 403(b) plan is that:

A. the 403(b) plan is for small businesses while the 401(k) plan is for large corporations.

B. contributions to 403(b) plans are always tax deductible, which is not the case with 401(k) plan contributions.

C. only employers can contribute to 403(b) plans while both employers and employees can contribute to 401(k) plans.

D. the 403(b) plan is for employees of specific non-profit organizations whereas the 401(k) plan is for the employees of private corporations.

Answer: D

Explanation:

The essential difference between a 401(k) plan and a 403(b) plan is that the 403(b) plan is for employees of specific non-profit organizations whereas the 401(k) plan is for the employees of private corporations. The tax advantages and eligibility requirements of a 403(b) plan are the same as those for a 401(k) plan.

NEW QUESTION: 3

Cisco

NGFWs are designed to provide a secure and reliable network environment. They are designed to provide a secure and reliable network environment. They are designed to provide a secure and reliable network environment.

A. They are designed to provide a secure and reliable network environment.

B. They are designed to provide a secure and reliable network environment.

C. They are designed to provide a secure and reliable network environment.

D. They are designed to provide a secure and reliable network environment.

Answer: A

Explanation:

Explanation

<https://www.cisco.com/c/en/us/td/docs/security/firepower/fxos/clustering/asa-cluster-solution.html> Clustering lets you group multiple Firepower Threat Defense (FTD) units together as a single logical device.

Clustering is only supported for the FTD device on the Firepower 9300 and the Firepower 4100 series. A cluster provides all the convenience of a single device (management, integration into a network) while achieving the increased throughput and redundancy
