Practice the Exam Format and the Study Questions, So, you can attend the C_C4H510_04 test without psychological burden, And you have the right to enjoy one year free update of the C_C4H510_04 training questions.

If you decide to buy the C_C4H510_04 learn prep from our company, we are glad to arrange our experts to answer your all questions about the study materials.

NEW QUESTION: 1

Configure the following command on the Huawei firewall:

```
[USG] interface G0/0/1
```

```
[USG] ip urpf loose allow-default-route acl 3000
```

Which of the following options are correct? (Multiple choice)

- A.** For the loose type check, if the source address of the packet exists in the FIB table of the firewall, the packet passes the check.
- B.** If the source address of the packet does not exist in the FIB table of the firewall and the default route is configured and the allow-default-route parameter is also matched, the packet cannot pass the URPF check even if it is a loose type check.

C. If the default route is configured and the allow-default-route parameter is also matched, if the source address of the packet does not exist in the FIB table of the firewall, but for the loose type check, the packet will pass through URPF check, and perform normal forwarding.

D. If the default route is configured but the parameter allow-default-route is not configured. As long as the source address of the packet does not exist in the FIB table of the firewall, the packet will be rejected.

Answer: A,C,D

NEW QUESTION: 2

DRAG DROP

A company uses Skype for Business Online. The company uses the Lync 2013 client. The company plans to migrate users to the Skype for Business client.

The company does not want to use the Skype for Business user interface. In addition, it does not want the first launch interface to give users any options to choose from.

You need to upgrade the users' computers.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

You can use the Set-CSClientPolicy cmdlet with the EnableSkypeUI parameter to specify the client experience the users in your organization will see.

To force the display of the Lync user interface when users launch the Skype for Business client for the first time, you should confirm that the value of EnableSkypeUI is set to \$False in the policy you are using.

The registry update to display the Lync client experience the first time a user launches the Skype for Business client can be done using a Group Policy Object (GPO).

NEW QUESTION: 3

You plan to use the Azure Import/Export service to copy files to a storage account.

Which two files should you create before you prepare the drives for the import job? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. a dataset CSV file

- B. an XML manifest file
- C. a JSON configuration file
- D. a PowerShell PS1 file
- E. a driveset CSV file

Answer: A,E

Explanation:

B: Modify the driveset.csv file in the root folder where the tool resides.

C: Modify the dataset.csv file in the root folder where the tool resides. Depending on whether you want to import a file or folder or both, add entries in the dataset.csv file
