NEW QUESTION: 1

DRAG DROP

Answer:

Explanation:

Note:

Box 1: Create a service namespace under Service Bus
To begin using Service Bus queues in Azure, you must first create a service namespace. A namespace provides a scoping container for addressing Service Bus resources within your application.

Box 2: Obtain the default management credentials for the namespace.

In order to perform management operations, such as creating a queue on the new namespace, you must obtain the management credentials for the namespace.

Box 3: Configure the application to use Service Bus Relay
When you create an application that uses Service Bus, you must add a reference to the Service Bus assembly and include the corresponding namespaces.

The Service Bus NuGet package is the easiest way to get the Service Bus API and to configure your application with all of the Service Bus dependencies.

After installing this package you are now ready to write code for Service Bus.

Box 4: Configure Service Bus Queue

This would include:

- * set up a Service Bus connection string
- * create a queue
- * provide code to send/receive messages from the queue

NEW QUESTION: 3

A client had a right below-the-knee amputation 4 days ago. He is complaining of pain in his right lower leg.

The nurse should:

- A. Remind the client that he no longer has that part of his leg and assure him he will be OK
- B. Call the physician to request a psychological consultation for the client
- C. Turn on the television to distract the client's attention from his amputated leg
- D. Give the client his order of Demerol 50 mg IM prn

Answer: D

Explanation:

Explanation/Reference:

Explanation:

(A) The nurse is ignoring the client's pain. Telling the client that he will be OK will not relieve his phantom pain. (B) The client does not need a psychological consultation. Phantom pain is a normal sensation experienced by clients with amputations. (C) Using the television as a distractor will not relieve the client's phantom pain. (D) Phantom pain is a normal, very real experience for an amputee and should be treated with pain medication.
