As we all know, today's society is full of competition, **Discount C_S4HDEV1909 Code** especially in IT industry, the information renewal is fast and the revolution is happened all the time, C_S4HDEV1909 exam materials are compiled by experienced experts, and they are quite familiar with the exam center, and therefore the quality can be guaranteed.

Before you decide to get the C_S4HDEV1909 exam certification, you may be attracted by the benefits of C_S4HDEV1909 credentials, In order to solve customers' problem in the shortest time, **Discount C_S4HDEV1909 Code** our SAP Certified Development Associate - Programming in SAP S/4HANA, for SAP NetWeaver ABAP Programmer guide torrent provides the twenty four hours online service for all people.

C_S4HDEV1909 Practice Materials: SAP Certified Development Associate - Programming in SAP S/4HANA, for SAP NetWeaver ABAP Programmer and C_S4HDEV1909 Study Guide - Mecatronica

I think our recent success not only rely on our endeavor but also your support, Our C_S4HDEV1909 learning materials surely help you grasp the knowledge easily, So stop idling away your precious time and begin your review with the help of our C_S4HDEV1909 learning quiz as soon as possible, and you will pass the exam in the least time.

We continue to update our dumps in accord with C_S4HDEV1909 real exam by checking the updated information every day, So do not say you can't, Confronting with pervasive practice materials in the market, you may get confused.

And has a large number of IT industry professionals and technology [SPLK-3002 Reliable Exam Braindumps](#) experts, based on customer demand, according to the the outline developed a range of products to meet customer needs.

Someone will ask if we are legal company and our SAP C_S4HDEV1909 exam collection materials are really valid & latest, Now we are willing to introduce our C_S4HDEV1909 practice questions to you in detail, we hope that you can spare your valuable time to have a try on our products.

The language of our C_S4HDEV1909 exam torrent is simple to be understood and our C_S4HDEV1909 test questions are suitable for any learners, Now just focus on the C_S4HDEV1909 actual exam you are facing, and you must know if you want to get rid of that thoughts forever, start from passing the SAP C_S4HDEV1909 test sure pass smoothly as a start.

This advantage of C_S4HDEV1909 study materials allows you to effectively use all your fragmentation time.

NEW QUESTION: 1

HOTSPOT

Case Study

This is a case study. Case studies are not limited separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other question on this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next sections of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question on this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Background

Fabrikam is a commercial bank. The primary customers are individuals and employers with up to 10,000 employees. Fabrikam provides Internet banking services to customers.

You are developing a Universal Windows Platform (UWP) app for Fabrikam that extends the Internet banking to a UWP app.

Business Requirements

Core functionality

Users must be able to access accounts, view balances, view recent transactions, and deposit checks by using the UWP app.

Usability

The app must use industry proven design patterns across the app. All navigational elements must be visible at all times.

Security

The app must provide secure transactions to protect customer privacy.

Technical Requirements

Data

The app must use a file based database. You must use a code first entity framework approach.

User interface

You must use a Model-View-ViewModel (MVVM) pattern.

Users must be able to access all content through the top-level navigation after they sign in.

The app must allow the user to upload up to 50 images (front and back) of checks to deposit.

During the upload process, the app must be responsive to any other user actions.

The app must only upload images when no other pending inputs are in the queue.

You must implement the following pages:

Network and web service

The app must meet the following requirements related to networking and web services:

Connect to a web service over a secure HTTP connection to upload images.

Connect to Fabrikam's core web service to retrieve account information.

Use networking technology already available in the .Net Framework.

Consume the JSON that the Fabrikam core web service provides.

User data and alerts

The app must meet the following requirements related to user data and alerts:

Download new monthly bank statements when possible. The download process must not affect the

performance of the app.

Report to the user when the statements are downloaded to the device.

Write a log entry when statement downloads are not successful.

Periodically check for user activity and automatically log the user out when there is no activity for more

than 15 minutes.

Security

The app must meet the following requirements related to security:

Use a multi-factor authentication (MFA) by using email and a verification code to identify the user.

Securely store credentials and retrieve credentials.

Automatically sign in the user irrespective of the device that is used to sign in to the app.

Store the resource name within the app itself.

Connect to an authentication app by using the URI schema `fabrikam-security://oauth/`.

Application Structure

AccountContext.cs

Relevant portions of the app files are shown below. Line numbers in the code segments are included for reference only and include a two-character prefix that denotes the specific file to which they belong.

ImageManager.cs

Relevant portions of the app files are shown below. Line numbers in the code segments are included for reference only and include a two-character prefix that denotes the specific file to which they belong.

ClientProxy.cs

Relevant portions of the app files are shown below. Line numbers in the code segments are included for reference only and include a two-character prefix that denotes the specific file to which they belong.

BkgTaskMgr.cs

Relevant portions of the app files are shown below. Line numbers in the code segments are included for reference only and include a two-character prefix that denotes the specific file to which they belong.

CredentialManager.cs

Relevant portions of the app files are shown below. Line numbers in the code segments are included for reference only and include a two-character prefix that denotes the specific file to which they belong.

MainPage.cs

Relevant portions of the app files are shown below. Line numbers in the code segments are included for reference only and include a two-character prefix that denotes the specific file to which they belong.

You need to insert code at line CP15 to retrieve the account balance for a user.

How should you complete the relevant code? To answer, select the appropriate code segment from each list in the answer area.

Hot Area:

Answer:

Explanation:

Explanation/Reference:

Explanation:

From scenario:

Users must be able to access accounts, view balances, view recent transactions, and deposit checks by using the UWP app.

Box 1: HttpClient

Box 2: GetAsync

Box 3: DataContractJsonSerializer

From scenario: Consume the JSON that the Fabrikam core web service provides.
