A. Define the organization with the Following:

1. Add the organization classifications HR Organization and ProjectExpenditure/Event
2. Add the organization to an organization hierarchy.
3. Define Organization Labor Costing Rules.

B. Define the organization with the Following:

1. Add Cost Centres as the Organization type.
2. Add an organization classification of HR Organization.
3. Add the organization to an organization hierarchy.

C. Define the organization with the Following:

1. Add the organization classifications HR Organization and ProjectExpenditure/Event
2. Add the organization to an organization hierarchy
3. Add the organization hierarchy to the appropriate Oracle project implementation option setting

D. Define the organization with the following:

1. Add the organization classifications Project Expenditure/Event Organization.
2. Add the organization to an organization hierarchy.
3. Add the organization hierarchy to the appropriate Oracle project implementation option setting.

E. Define the organization with the following:

1. Add the organization classifications Project/Task Owning Organization and ProjectExpenditure/Event Organization.
2. Add the organization to an organization hierarchy.
3. Add the organization hierarchy to the appropriate Oracle project implementation option setting.

Answer: A

Explanation:

Note:

*You can set this at the Inventory Organization level in the Project Manufacturing Parameters window, the Costing tabbed region. This allows WIP employee resources and Project straight time hours to be summarized as Straight Time Expenditure Type Class.
*expenditure type class

An additional classification for expenditure types that indicates how Oracle Projects processes the expenditure types. For example, if you run the Distribute Labor Costs process, Oracle Projects will calculate the cost of all expenditure items assigned to the

Straight Time expenditure type class.
Formerly known as system linkage
