For most examinations our passing rate of Esri EAPF2101B test questions is high up to 98.95%, We will be with you in every stage of your preparation and give you the most reliable help.

**NEW QUESTION: 1**

- A. Option A
- B. Option E
- C. Option C
- D. Option B
- E. Option D

**Answer: E**

Explanation:

Within any VTP, the VTP domain name must match. So, step one is to find the correct VTP name on the other switches. Logging in to SW1 and using the "show vtp status" command we see this:

So we know that the VTP domain must be CCNP. This leaves only choice D and E.

We also see from the topology diagram that eth 0/0 of the new switch connects to a PC in VLNA 100, so we know that this port must be an access port in VLAN 100, leaving only choice D as correct. Note that the VTP versions supported in this network are 1, 2, 3 so either VTP version 2 or 3 can be configured on the new switch.

#### **NEW QUESTION: 2**

You customize the default Account form so that it has eight tabs and 120 fields. You use the device-native applications developed by Microsoft to deploy Microsoft Dynamics CRM clients on Android and iPad devices for remote employees.

Some of your remote employees require information from fields under the last tab.

You need to provide these fields to your remote employees.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

Choose two.

**A.** Create a new Mobile form and customize it so that all of the required fields appear within the first five tabs and first 75 fields.

**B.** Restructure fields on the default Main form by moving the required fields to one of the first five tabs and within the first 75 fields.

**C.** Edit the existing Mobile form, and place all of the required fields on it. Then assign the remote employees and the existing Mobile form to a specific security role after removing all other Mobile form and security role combinations.

**D.** Assign remote employees to a new security role, and create a new Main form for this security role with the required fields only. Then remove all form and security role combinations that allow remote employees access to other forms.

**Answer: B,D**

**NEW QUESTION: 3**

- A. USB
- B. WiFi
- C. IR
- D. NFC

**Answer: D**

**NEW QUESTION: 4**

Which technology can create a filter for an embedded packet capture?

- A. Control plane policing
- B. NBAR
- C. Access lists
- D. Traffic shaping

**Answer: C**

Explanation:

A filter can be applied to limit the capture to desired traffic. Define an Access Control List (ACL) within config mode and apply the filter to the buffer:

```
ip access-list extended BUF-FILTER
permit ip host 192.168.1.1 host 172.16.1.1
permit ip host 172.16.1.1 host 192.168.1.1
monitor capture buffer BUF filter access-list BUF-FILTER
```
