When you get study about the EMEAPD-MTECH actual test cram, you will find your thoughts about the EMEAPD-MTECH certification are more and more clear, then after several times of practice, you will be proficiency in the technical knowledge about the

Autodesk EMEAPD-MTECH test.

NEW QUESTION: 1

You are performing a SAM assessment for a customer that reconciles software inventory annually. Ninety-five percent of software assets are currently in inventory. Software deployment reports are available to SAM stakeholders. License Entitlement records are reconciled with vendor records quarterly.

You need to identify the maturity level for each SAM component. At which maturity level is each component? To answer, drag the appropriate SAM maturity levels to the correct components. Each SAM maturity level may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

Software inventory: Standardized

"Ninety-five percent of software assets are currently in inventory"

Standardized: Hardware and software inventory contains >68% of machines and software title spend.

Not Rationalized: Hardware and software inventory contains >96% of machines and software title spend.

Software deployment reporting: Rationalized

"Software deployment reports are available to SAM stakeholders"

Rationalized: Software deployment reports are accessible to stakeholders.

Not Dynamic: Software is dynamically available to users on demand

License entitlement records: Rationalized

"License Entitlement records are reconciled with vendor records quarterly" Rationalized: Entitlement records are reconciled with vendor records.
