- D. whereis
- E. query

Answer: A

NEW QUESTION: 2

A client operates a multinational corporation with operating units around the world. The corporation will be acquiring a new unit in North America to expand an existing site operation andwants the new operation to use IBM Tivoli software. Initially this new unit will operate under its current GL

account structure. What is the solution for the client to set up the new operation?

- A. Set up the new operation as a site under the North American organization.
- B. Set up the new operation as a new location system under the existing site.
- C. Set up the new operation in a separate database.
- D. Set up the new operation as a new organization.

Answer: C

NEW QUESTION: 3

Offer letters for a group of positions are missing key information. What are three items that you must ensure to troubleshoot this issue? (Choose three.)

- A. that the Organization-Location-Job Field structure is reflected in messages sent using the template
- B. that the messages are not being sent manually; else the variable will be left blank in the message
- C. that the variable is valid in the context
- D. that the data being requested by the variables is being collected, and is available in the system
- E. that the paragraph referencing the data fields is active in the Paragraphs list

Answer: A,D,E

NEW QUESTION: 4

Scenario:

You have been asked by your customer to help resolve issues in their routed network. Their network engineer has deployed HSRP. On closer inspection HSRP doesn't appear to be operating properly and it appears there are other network problems as well. You are to provide solutions to all the network problems.

Examine the configuration on R5. Router R5 do not see any route entries learned from R4; what could be the issue?

- A. HSRP issue between R5 and R4
- B. The ACL configured on R5 is blocking traffic for the subnets advertised from R4.
- C. There is an OSPF issue between R5and R4
- D. The distribute-list configured on R5 is blocking route entries
- E. There is a DHCP issue between R5 and R4

Answer: C

Explanation:

Explanation

If we issue the "show ip route" and "show ip ospf neighbor" commands on R5, we see that there are no learned OSPF routes and he has no OSPF neighbors.
