Our CHEAP PRICE Unlimited Access Package [Study SAP-C01-KR Dumps](#) buys unlimited access to our library of downloadable PDFs for 1200+ exams, Our H11-879\_V1.0 study materials use a very simple [H11-879\\_V1.0](#) and understandable language, to ensure that all people can learn and understand.

Ten years have gone, and three versions have **Valid H11-879\_V1.0 Torrent** been made for your reference, To cope with the fast growing market, we will always keep advancing and offer our clients the most refined technical expertise and excellent services about our H11-879\_V1.0 exam questions.

Our H11-879\_V1.0 exam cram can help you clear exam and obtain exam at the first attempt, Just double click the zip files, People pay more and more attention to meaningful tests.

#### **NEW QUESTION: 1**

Refer to the Cisco IOS XR policy-map configuration exhibit.

What is wrong with the policy-map configuration?

- A. missing the bandwidth command under class one and class two
- B. missing the police command under class three
- C. missing the priority percent command under class one and class two
- D. missing the priority bandwidth command under class one and class two
- E. missing the police command under class one and class two

#### **Answer: E**

Explanation:

Explanation

Hierarchical policing is also supported. In such a configuration, both parent and child policies have class-maps containing policing statements, as in the following example:

```
!  
policy-map child  
class gold  
police rate percent 50 conform-action set precedence immediate  
exceed-action drop  
!  
!  
policy-map parent  
class match_all  
police rate 10000 kbps burst 15000 exceed-action drop  
service-policy child
```

**NEW QUESTION: 2**

According to the common vulnerability scoring system, which term is associated with scoring multiple vulnerabilities that are exploit in the course of a single attack?

- A. risk analysis
- B. confidentiality
- C. Vulnerability chaining
- D. chained score

**Answer: C**

Explanation:

**NEW QUESTION: 3**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company registers a domain name of contoso.com.

You create an Azure DNS zone named contoso.com, and then you add an A record to the zone for a host named www that has an IP address of 131.107.1.10.

You discover that Internet hosts are unable to resolve www.contoso.com to the 131.107.1.10 IP address.

You need to resolve the name resolution issue.

Solution: You create a PTR record for www in the contoso.com zone.

Does this meet the goal?

- A. Yes
- B. No

**Answer: B**

Explanation:

Modify the Name Server (NS) record.

A NS record would be created automatically and you cannot

modify it (but you can add to it to support co-hosting domains). You can add additional name servers to this NS record set, to support co-hosting domains with more than one DNS provider. You can also modify the TTL and metadata for this record set. However, you cannot remove or modify the pre-populated Azure DNS name servers.

#### **NEW QUESTION: 4**

What types of chart of accounts are there? (There are three correct answers.)

- A. Country chart of accounts
- B. Group chart of accounts
- C. Operational chart of accounts
- D. Functional chart of accounts
- E. Organizational chart of accounts

**Answer: A,B,C**

Explanation:

The operational chart of accounts and the country/local chart of accounts are assigned to the company code. The group chart of accounts is assigned to the operational chart of accounts. The other two types don't exist. In the certification exam, the exam writers can't make up objects that aren't actually in the system (they can use objects that exist but aren't taught in the courses as wrong selections though), so this would be another rejected question from a certification exam.
