NEW QUESTION: 2

A customer wants to implement Windows Server 2008 R2 to run a two-node Hyper-V cluster. The cluster will contain six virtual machines that run Windows Server 2008 R2 Enterprise. The six virtual machines will be configured to fail over independently from each other. How many Windows Server 2008 R2 Enterprise licenses are required?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

Explanation:

Hyper-V Server 2008 R2 is free. In this scenario, we've simply assigned the Windows Server 2008 Enterprise license to the physical box, and we receive 4 free running instances of Windows Server 2008 Enterprise, or downgraded, in virtual machines. We could have 100 virtualised Windows Servers on this particular box, but the license gives you 4 free running instances at one time. For the fifth and sixth virtual machine we need to purchase extra licenses - two in total.
