NEW QUESTION: 1

Which one of the following represents a constraint on the acquire project team process?

A. Pre assignment of staff to the project

- B. Recruitment practices of the organizations involved
- C. Team member training requirements
- D. Use of outsourcing

Answer: B

Explanation:

Explanation/Reference:

Explanation:

Staff assignments in organizations are governed by the policies, procedures, or guidelines of individual components. These policies will constrain the project manager's actions in acquiring a project team. The more familiar the project manager is with such policies, the easier it will be for him/her to assemble a team.

Such recruitment practices are examples of personnel administration policies; an enterprise environmental factor, which is an input to acquire project team.

NEW QUESTION: 4

Your company has an Office 365 subscription. You create a new retention policy that contains several retention tags. A user named Test5 has a client computer that runs Microsoft Office Outlook 2007. You install Microsoft Outlook 2010 on the client computer of Test5. Test5 reports that the new retention tags are unavailable from Outlook 2010.

You verify that other users can use the new retention tags. You need to ensure that the new retention tags are available to Test5 from Outlook 2010.

What should you do?

- A. Instruct Test5 to repair the Outlook profile.
- B. Run the Set-Mailbox cmdlet.
- C. Modify the retention policy tags.
- D. Force directory synchronization.

Answer: A

Explanation:

Explanation

When deploying retention policies it is part of the procedure to create the tags and add it to the retention policies prior to the deployment. Also part of the procedure is to determine which Microsoft Outlook client versions are in use. In this case the Test5 version has been changed and Test5 will then have to repair his/her Outlook profile accordingly.
