NEW QUESTION: 2

You are using Amazon SQS and are getting a "Queue Deleted Recently" error. What is wrong?

- A. If you delete a queue, you need to wait for at least 60 seconds before creating a queue with the same name
- B. The message is too big
- C. You have incorrect permissions
- D. Another user has deleted the queue

Answer: A

Explanation:

If you delete a queue, you need to wait for at least 60 seconds before creating a queue with the same name. Please note that when you delete a queue, the deletion process takes up to 60 seconds. Requests you send to a recently deleted queue might succeed during the 60-second period. For example, a SendMessage request might succeed, but after 60 seconds the queue and that message you sent no longer exists.

NEW QUESTION: 3

In conclusion, it seized first the corpse of the daughter, and thrust it up the chimney, as it was found; then that of the old lady, which it immediately hurled through the window headlong. As the ape approached the casement with its mutilated burden, the sailor shrank aghast to the rod, and, rather gliding than clambering down it, hurried at once home--dreading the consequences of the butchery, and gladly abandoning, in his terror, all solicitude about the fate of the Ourang-Outang. The words heard by the party upon the staircase were the Frenchman's exclamations of horror and affright, commingled with the fiendish jabberings of the brute.

I have scarcely anything to add. The Ourang-Outang must have escaped from the chamber, by the rod, just before the break of the door. It must have closed the window as it passed through it. It was subsequently caught by the owner himself, who obtained for it a very large sum at the Jardin des Plantes.

Le Don was instantly released, upon our narration of the circumstances (with some comments from Dupin) at the bureau of the Prefect of Police. This functionary, however well disposed to my friend, could not altogether conceal his chagrin at the turn which affairs had taken, and was fain to indulge in a sarcasm or two, about the propriety of every person minding his own business.

Which selection best describes the action referred to by "break of the door" 2nd paragraph?

- A. The party broke down the door.
- B. The door was broken into by using a rod.

- C. The Ourang-Outang broke the door to gain entry.
- D. The party entered through the door broken by the brute.
- E. The sailor broke into the chamber allowing the Ourang-Outang to follow.

Answer: A

Explanation:

We know the Ourang-Outang did not break the door because it escaped from the window just before the door was broken. Since everyone else had already escaped or was dead, only someone from the outside could have broken the door. The party of people investigating the noises coming from the chamber had to break down the door to gain entrance.

NEW QUESTION: 4

- B. Option A
- C. Option C
- D. Option E
- E. Option F
- F. Option D

Answer: F

Explanation:

A cube can be write-enabled only if all its measures use the Sum aggregate function.
